

## **SERVICE ENGINEER – VACANCY**

### **THE COMPANY**

Maziak Compressor Services Ltd in Wellingborough is a market leader in the compressed air industry and we are growing! Our service support is of the highest quality, our ability to help our customers save energy is second to none and we are always at the forefront of market innovations.

### **THE ROLE**

We have a fantastic opportunity got someone to join us in a key customer facing position.

You are responsible for installing servicing and maintaining compressed air systems for small medium and large companies primarily within the Midlands/East Anglia area but at times also nationally. You will work efficiently, professionally and in a manner compliant with customer and Health & Safety requirements. All paperwork will be completed thoroughly and in a timely manner. You will work closely with the service team back office on a day to day basis and also with the sales team to proactively identify commercial opportunities.

### **THE PERSON**

Ideally, you will have experience of engineering in a compressed air environment, however, candidates who are multi-skilled maintenance engineers with extensive knowledge of electrical and mechanical fault finding will also be considered. You will have excellent problem solving and communications skills, be able to work alone and take initiative and have a pro-active responsible and efficient approach to all that you do. You will also understand the importance of thorough and timely reporting.

### **THE PACKAGE**

Reporting to the Service Manager, the package is competitive — details upon request – and a company van is supplied.

### **APPLICATIONS**

Closing date for applications is 17<sup>th</sup> February 2012.
